

SHORE and Whariki Research Centre

Easy Evaluation

Learn to evaluate your projects. Gain skills and confidence in using evaluation in your work and learn how to apply programme logic.

The SHORE and Whariki Research Centre is contracted by the Ministry of Health to provide evaluation training plus organisational and individual support for the public health workforce and community organisations with a public health focus (targeting communities, groups and environments rather than the delivery of personal health services).

There is no charge for this training and organisation support.

Training options:

- Three day **Easy Evaluation** workshops which cover developing a logic model and designing an evaluation for your own project.
- One day **Planning and Programme Logic** workshops that focus on project planning and logic modelling.
- One day **Building your Evaluation** workshops which look at how to use your logic model to develop an evaluation plan.
